

Jockey Seat

Jockey Seat

Standard features:

- Triple suspension shock mitigation Jockey Seat
- Designed to prevent injuries by keeping your posture correct
- The base is narrower at the knees to make you feel more secure in rough seas
- Mitigation foam built into the cushioned base for the initial shock mitigation
- Shuffle suspension removes side impacts without too much seat movement
- Spring and damper assisted shock mitigation compression suspension
- Upholstered in tough tec Neoprene or marine vinyl
- Anodised aluminium
- Light-weight suspension base
- Height adjustment

Options:

- Grab handles
- Back rest support wings (as shown on picture)
- Single or double sided headrest
- Glass fibre base with lockable storage compartment
